this text is a practical introduction to the principles and practices of caregiving for infants and toddlers it combines a child and family centered philosophy with problem solving strategies and provides a thorough discussion of gender role stereotyping and multicultural issues in childcare

this pediatric primary care text takes a family centered approach examining issues from the perspective of the child and the caregiver unlike most primary care texts it blends traditional health care with complementary therapies throughout it identifies needs based on culture and ethnicity and lists community resources including websites where families can obtain more information or help features include case studies clinical pearls and clinical warnings compatibility blackberry r os 4 1 or higher iphone ipod touch 2 0 or higher palm os 3 5 or higher palm pre classic symbian s60 3rd edition nokia windows mobile tm pocket pc all versions windows mobile smartphone windows 98se 2000 me xp vista tablet pc

this volume extends the knowledge base supporting research informed child care for infants and toddlers while simultaneously highlighting areas of study ripe for future research the authors demonstrate from a systems perspective that the experiences and outcomes of very young children in child care are influenced by characteristics of and interactions between the children adults and settings varying methodological approaches as well as the utilization of newer data collection instruments inform the field s understanding of current practices and procedures while offering guidance for future programming and policy in turn the chapters highlight a plethora of open questions and a need for a new generation of research to support the field of infant toddler care future challenges are evident in the recognition of the inadequate nature of our current measures of child outcomes and classroom processes the field

s unmet promise to incorporate interdisciplinary perspectives and the need for newer methodological designs that blend the strengths of quantitative and qualitative approaches these issues are important given the growing demand for infant toddler care and the increasing recognition of the unique role of this age period in serving as the foundation for all later development this book was originally published as a special issue of early education and development

presents an introduction to the principles and practices of caregiving for infants and toddlers

between the ages of one and three children go through a distinct stage that every parent knows well toddlerhood primarily concerned with themselves and their immediate worlds toddlers present special needs to their caregivers this book outlines a responsive nondirective approach to help professionals with this unique developmental stage the authors approach is child centered focusing on the need to let children be themselves in as natural and individual a way as possible rather than stressing preschool academic achievement responsive caregiving adjusting to the specific needs of the children requires as much knowledge of psychology sociology education and medicine as directive caregiving but in addition the responsive caregiver needs a rarer higher skill an ability to follow the toddler s lead back cover

this highly anticipated third edition of the handbook of parenting brings together an array of field leading experts who have worked in different ways toward understanding the many diverse aspects of parenting contributors to the handbook look to the most recent research and thinking to shed light on topics every parent professional and policymaker wonders about parenting is a perennially hot topic after all everyone who has ever lived has been parented and the vast majority of people become parents themselves no wonder bookstores house shelves of how to parenting books and magazine racks in pharmacies and airports overflow with periodicals that feature parenting advice however almost none of these is evidence based the handbook of parenting is period each chapter has been written to be read and absorbed in a single sitting and includes historical considerations of the topic a

discussion of central issues and theory a review of classical and modern research and forecasts of future directions of theory and research together the five volumes in the handbook cover children and parenting the biology and ecology of parenting being and becoming a parent social conditions and applied parenting and the practice of parenting volume 4 social conditions and applied parenting describes socially defined groups of parents and social conditions that promote variation in parenting the chapters in part i on social and cultural conditions of parenting start with a relational developmental systems perspective on parenting and move to considerations of ethnic and minority parenting among latino and latin americans african americans asians and asian americans indigenous parents and immigrant parents the section concludes with considerations of disabilities employment and poverty on parenting parents are ordinarily the most consistent and caring people in children s lives however parenting does not always go right or well information education and support programs can remedy potential ills the chapters in part ii on applied issues in parenting begin with how parenting is measured and follow with examinations of maternal deprivation attachment and acceptance rejection in parenting serious challenges to parenting some common such as stress and depression and some less common such as substance abuse psychopathology maltreatment and incarceration are addressed as are parenting interventions intended to redress these trials

in this book motherhood and reproduction are identified as sites of legal political and ideological surveillance regulation and criminalization collectively this rich and diverse edited volume builds on cross disciplinary frameworks and an attention to differences among mothers to analyze multiple ways that mothers and pregnant women face culture policy or practices that may criminalize their identities or their actions several themes cross the volumes six chapters from the importance of and problems related to socialized expectations of what good mothers should do for incarcerated formerly incarcerated and never incarcerated mothers alike to the role of state actors and everyday informal interactions in enforcing these expectations particularly against marginalized black brown and young mothers in open air prisons conflicts between motherhood ideologies and state control dominate many

women under carceral motherhood nation states are also implicated in these analyses particularly in the european union where nation states outsource abortion across and within geopolitical borders making migration a contested strategy for pregnant women yet despite the criminalizing of motherhood and reproduction described in the text women and mothers are also found to be resilient choosing their identities and their actions criminalizing motherhood and reproduction will be a key resource for researchers scholars and practitioners in the fields of feminist criminology and motherhood studies criminology and criminal justice women s studies gender studies child and youth studies and sociology it was originally published as a special issue of women criminal justice
