professor van caenegem s new book addresses fundamental questions of constitutional organization democracy versus

autocracy unitary versus federal organization pluralism versus intolerance by analyzing different models of constitutional government through a historical perspective the approach is chronological constitutionalism is explained as the result of many centuries of trial and error through a narrative that begins in the early middle ages and concludes with contemporary debates focusing on europe the united states and the soviet union

this is a new release of the original 1904 edition

there are some stories that need to be told anew to every generation this book tells one such story it explores the historical origins of the common law and explains why that story needs to be understood by all who study or come into contact with english law the book functions as the prequel to what students learn during their law degrees or for the sqe it can be read in preparation for or as part of modules introducing the study of english law or as a starting point for specialist modules on legal history or aspects of legal history this book will not only help students understand and contextualise their study of the current law but it will also show them that the options they have to change the law are greater than they might assume from just studying the current law

oxford history of modern german theology vol i 1781 1848 offers a multi author overview of the development of modern german theology from 1781 to 1848 across 36 chapters kaplan and vander schel underline important movements in german theology during this period and highlight unresolved questions which have shaped subsequent discussion

publisher description

this fifteenth edition of cheshire fifoot furmston's law of contract remains one of the leading textbooks on the subject more than fifty years after the publication of its first edition michael furmston's exposition is comprehensive and clear and describes all the major principles of the english law of contract

the 24 essays in this volume explore the formation of clerical and confessional identities in early modern europe from three angles the first part of the book focuses on education and theological training the second on the interpretation of scripture and preaching and the third on the construction of clerical and communal expectations and self understandings the interdisciplinary discussion intersects with the confessionalization debate and proceeds from comparative perspectives confessionally geographically and dimensionally local and international what is especially innovative is the rich portrait of the complexities of identities and the sources used to determine them an extensive introduction offers a detailed systematic overview and lays the foundation for discussions of the volume's refreshing findings a book review section is annexed contributors include raymond a blacketer wietse de boer f g m broeyer robert j christman kathleen m comerford stefan ehrenpreis riemer a faber david fors freeman leendert f groenendijk wim janse gary w jenkins karin maag ellen a macek emily michelson andreas mühling patrick j o banion g sujin pak barbara pitkin rady roldán figueroa jason sager robert e scully sj margo todd sven tode and gerrit voogt

a reprint with new introduction of the harper torch edition of 1970 the famous introductory lectures collected in this volume represent the distillation of hegel's mature views on the three most important activities of spirit and have the further advantage shared by his lectures in general of being more comprehensible than those works of his published during his lifetime a new introduction select bibliography analytical table of contents and the restoration in the section headings of the outline of hegel's

lectures make this new edition particularly useful and welcome

this is a short and succinct summary of the unique position of roman law in european culture by one of the world's leading legal historians peter stein's masterly study assesses the impact of roman law in the ancient world and its continued unifying influence throughout medieval and modern europe roman law in european history is unparalleled in lucidity and authority and should prove of enormous utility for teachers and students at all levels of legal history comparative law and european studies award winning on its appearance in german translation this english rendition of a magisterial work of interpretive synthesis is an invaluable contribution to the understanding of perhaps the most important european legal tradition of all

while the united states was dominant in the development of psychology for much of the twentieth century other countries have experienced significant growth in this area since the end of world war ii the percentage of those in the discipline who live and work in the united states has been growing smaller and it is now impossible to completely understand the field if developments in psychology outside of the united states are ignored internationalizing the history of psychology brings together luminaries in the field from around the world to address the internationalizing of psychology each raising core issues concerning what an international perspective can contribute to the history of psychology and to our understanding of psychology as a whole for too long much of what we have taken to be the history of psychology has actually been the history of american psychology this volume ideal for student use and for those in the field illuminates how what we have been missing may change our views of the nature of psychology and its history contributors ruben ardila geoffrey blowers adrian c brock kurt danziger aydan gulerce john d hogan naomi lee johann louw fathali m moghaddam anand c paranjpe iringard
